I save my soul ©Auteur compositeur Eddy Ray Cooper

*Deep in my soul
I feel alone
Now it's time
Just one glass of wine*

*I feel so blue
Didn't find the clue
How to let the good times roll
Without Rock n roll*

*I save my soul I save my soul going back to the rock n roll
I save my soul I save my soul letting the good times roll*

*The music was fine
Like sparkling wine
And I recall
The good times roll*

*Walking in the night
My eyes are open wide
Looking for my way
Chasing my blues away*

*I save my soul I save my soul going back to the rock n roll
I save my soul I save my soul letting the good times roll*

*So right or wrong
I sing my song
And I walk away
This is what I have to say*

*I save my soul I save my soul going back to the rock n roll
I save my soul I save my soul letting the good times roll*

I don't know what to do ©Auteur compositeur Eddy Ray Cooper

*Now listen everybody about me and Betty Lou
She doesn't want my kisses but I think my love is true
She always leave me blue
I don't know what to do I don't know what to do*

*I don't know what to do to win her heart
I don't know what to do I try to play smart*

*Nobody in this world is as so pretty as this girl
She doesn't treat me nice and she is as cold as ice
When I say I love you she never says I love you too
I don't know what to do*

*I don't know what to do to win her heart
I don't know what to do I try to play smart*

*Each time I tell myself I should forgetting her
But I m a victim of her charms and I want her in my arms
She is in love with someone else and I ain't got a chance
I don't know what to do to*

*I don't know what to do to win her heart
I don't know what to do I try to play smart*

*Now listen everybody about me and Betty Lou
She doesn't want my kisses but I think my love is true
She always leave me blue
I don't know what to do I don't know what to do*

The lonesome man ©Auteur compositeur Eddy Ray Cooper

*Since my baby left me
I feel alone
I woke up every morning
Without my baby cause she's gone*

*Each time I see her again
How can I just be a friend
When I read the letter she wrote me
I feel so lonely*

*I need her love
Why has she is gone
I'm the lonesome man
I need her love
Why has she is gone
I'm the lonesome man*

*She will be my only angel
She will be unforgettable
We spent good times together
I think of her forever*

*All my friend says I'll survive
It's a matter of time
Sometimes it's hard to be lonely
That's why I always drink whiskey*

*I need her love
Why has she is gone
I'm the lonesome man
I need her love
Why has she is gone
I'm the lonesome man*

*Since my baby left me
I feel alone
I woke up every morning
Without my baby cause she's gone*

Email from jail ©Auteur compositeur Eddy Ray Cooper

*I just want to let you know
You're the one and I love you so
I just want to let you know
You're my dream everywhere I 'll go*

*I know you found somebody knew
I can't forget the love I had for you
I should close my window pain
Away the blues and stop the rain*

*Forget that email that I sent to you
Forget that email that I sent to you from jail*

*You took away my lonely dreams
You took away most everything
Somebody else stand by your side
And you look so satisfied*

*Forget that email that I sent to you
Forget that email that I sent to you from jail*

*I just want to say goodbye
I finish my time and soon I'll fly
I'll go so far across the sea
With souvenirs of you and me*

*Forget that email that I sent to you
Forget that email that I sent to you from jail*
